

Installation Manual

Lettering: Blade Sign
Application: for indoor and outdoor use

Connect + & - wire with main power source.
Sign voltage: 90 ~ 250V

6

Trouble shooter:

Your blade sign is produced with the highest possible care, it is tested and has passed our QC. If the complete blade sign however is not functioning upon your installation, please check the following:

1. Is the main power on?
2. Are all wires ('+' & '-') connected correctly?
3. If the sign still won't work, please contact us at www.brandsigns.nl.
